

Earphones designed for a woman's ear.

The Bliss Gold series with in-line remote and mic, is ideal for women with a distinct sense of style and sophisticated taste who want their accessories to sparkle and match a variety of outfits. The Gold series acoustics feature crisp and clean audio, especially ideal for emphasis on vocals. Many earbuds are too large or uncomfortable for the female ear, preventing her from enjoying the best listening experience. Altec Lansing's Bliss size and styling were designed with a woman in mind from the start. With smaller sized components these earphones are lightweight and comfortable while still delivering superior audio performance.

Performance Audio, Stylish Sparkle.

DURABILITY

Color-coordinated braided cloth cords eliminate friction and tangling.

SOUND

Clear sound and enhanced vocals are ideal for music, movies or audio books.

COMFORT

Smaller housings, narrower barrels and petite eartips are designed for smaller ears, and comfortable Snug Fit™ design blocks outside noise.

STYLE

Jewel-faceted design with vibrant, feminine hues, and matching color accents.

COMPATIBILITY

Perfect for listening to music on MP3 Players, iPods, smartphones and tablets.
