

# Just Mobile ShutterGrip™

The grab-and-go camera control for your smartphone

- GP-100BK
- GP-100BL
- GP-100GD

ShutterGrip™ instantly transforms your smartphone into a serious camera. It uses a tensioned grip to attach to almost any smartphone - case or no case - and provides a solid, ergonomic handle and wireless shutter button. No more shaky shots or photographic fumbles.

With a tripod screw, lanyard hole and non-slip grip, ShutterGrip™ makes it easy to attach accessories. And the ingenious modular design allows you to remove the shutter button to use as a remote control for selfies, videos and time lapses - making this a must-have accessory for any true creative.

## Features:

- Non-slip ergonomic grip
- Auto connection and auto power-off
- Tripod screw and lanyard hole (wrist-strap included)
- Compatible with most iOS and Android smartphones including Apple iPhone and Samsung Galaxy

### Removable bluetooth shutter release

Distance as far away as 33ft (10m)

### Expandable bracket design

Supporting smartphone from 2.4 to 3.4in (60mm to 85mm)
